EDUCATION

Aditya Engineering College   **2022 – 2025**
Bachelor of Technology in Computer Science and Engineering   *Surampalem, Andhra Pradesh*

Aditya Engineering College (2nd shift Polytechnic)   **2019 – 2022**
Diploma in Computer Engineering   *Surampalem, Andhra Pradesh*

SKILLS

Languages: C, Java, Dart, HTML, CSS, JavaScript, SQL
Subject Expertise: Data Structures and Algorithms, OOPS
Technologies and Frameworks: Flutter , Node.js , React

EXPERIENCE

Apxor technology solutions   **October 2024 – April 2025**
Associate SDE Intern
- Gaining hands-on experience with full-stack technologies, primarily focusing on React for frontend and Go for backend services, while building scalable web applications and interactive user interfaces.
- Actively learning about Large Language Models (LLMs), AI-driven tools, and integrating cutting-edge AI technologies into software solutions to enhance user experiences and product functionalities..

Workbees technologies   **April 2024 – September 2024**
Flutter Developer Intern
- As a Flutter development intern, I actively involved in developing mobile applications using Flutter framework, including UI design, implementation of features, and integration of backend services.
- Engaged in collaborative efforts with senior developers and designers to understand project requirements, troubleshoot issues, and implement effective solutions.

PROJECTS

Learn Online | *Dart , Flutter*
- Developed "Learn Online," a Flutter app offering comprehensive insights on universities, courses, exams, and career options.
- Designed an intuitive, responsive frontend using FlutterFlow,enabling seamless navigation through detailed QA pages.
- Successfully deployed the app on the Google Play Store, enhancing accessibility and user engagement in education.

Aditya App | *Dart , Flutter , Firebase*
- Developed a user-friendly application using the Flutter framework and Firebase database.
- Used Firebase for user authentication and storing the reviews of the users.

NOTES APP | *Dart , Flutter , Firebase*
- Developed a feature-rich notes app using Flutter, integrated with Firebase for seamless storage of notes, user data, and images.
- Implemented functionality for easy note sharing, promoting collaboration and knowledge sharing among users.
- Designed an intuitive user interface with support for light/dark modes, enabling enhanced user experience and ease of navigation.

ACHIEVEMENTS

- Secured first position in appathon competetion conducted in our college.
- Problem solving 5 star in Hackerrank.
- 2 star coder in code chef.
